

Imperial College London

British-French-German Conference on Optimisation 15 – 17 June 2015, London UK

The conference addresses all aspects of optimization and its applications, including optimization theory and algorithm design, robust and stochastic optimization, variational inequalities and convex analysis as well as applications in control theory, energy, finance, operations management and engineering.

Confirmed Plenary Speakers

Dimitris Bertsimas, MIT, USA
Regina Burachik, University of South Australia, AU
Michael Ferris, University of Wisconsin, USA
William Hager, University of Florida, USA
Michel Pierre, ENS Rennes, FR
Stefan Ulbrich, TU Darmstadt, DE

Confirmed Semi-Plenary Speakers

Paul Armand, Toulouse, FR
Amir Beck, Technion, IL
Erick Delage, HEC Montréal, CA
Serge Gratton, Toulouse, FR
Karthik Natarajan, Singapore University of
Technology and Design
Martin Skutella, TU Berlin, DE

Organising Committee

Ruth Misener, Imperial College London, UK
Panos Parpas, Imperial College London, UK
Stratos Pistikopoulos, Imperial College London,
UK; Texas A&M University, USA
Berc Rustem, Imperial College London, UK
Nilay Shah, Imperial College London, UK
Wolfram Wiesemann, Imperial College London, UK

Scientific Committee

Danny Ralph, University of Cambridge, UK (chair)
Henri Bonnel, Université de la Nouvelle-Calédonie,
New Caledonia
Jean-Baptiste Caillaud, Université de Bourgogne, FR
Mounir Haddou, INSA Rennes, FR
Daniel Kuhn, EPFL, CH
Helmut Maurer, Universität Münster, DE
Edouard Oudet, Université Joseph Fourier, FR
Teemu Pennanen, King's College London, UK
Sabine Pickenhain, TU Cottbus, DE
Andrea Walther, Universität Paderborn, DE
Michael Ulbrich, TU München, DE
Huifu Xu, City University London, UK
